Dear Sirs

Patents Act 1977:
Combined Search and Examination Report under Sections 17 and 18(3)

Latest date for reply: 15 August 2003

I enclose two copies of my search and examination report and a copy of the citation.

By the above date you should either file amendments to meet the objections in the report or make observations on them. If you do not, the application may be refused.

Publication

I estimate that, provided you have met all formal requirements, preparations for publication of your application will be completed soon after 29 July 2003. You will then receive a letter informing you of completion and telling you the publication number and date of publication.

Amendment/withdrawal

If you wish to file amended claims for inclusion with the published application, or to withdraw the application to prevent publication, you must do so before the preparations for publication are completed. No reminder will be issued. If you write to the Office less than 3 weeks before the above completion date, please mark your letter prominently: "URGENT - PUBLICATION IMMINENT".

Use of E-mail: Please note that e-mail should be used for correspondence only.

You should also note that the normal, unextended period allowed for complying fully with the requirements of the Act will end on 14 October 2003. However, if you need extra time to settle any remaining objections you are entitled to extend that period by one month by filing Patents Form 52/77 and fee.

Yours faithfully

Patents Act 1977

Combined Search and Examination Report under Sections 17 & 18(3)

Basis of the examination

1. My examination has taken account of the amendments filed with your agent's letter of 19 May 2003.

Allowance of the divisional date

2. Your request that this application be treated as having been filed on 6 March 2000, which is the same date of filing as your earlier application number GB 0005399.1, has been allowed.

Clarity and consistency

3. The reference to "the tubular liner" in claim 1 is inconsistent with the previous reference to "a tubular member".
4. Inconsistencies between claim 1, the title and the description on pages 1-8, 11-13 and 217-237 should be removed. Also the detailed description should be amended to clearly indicate which figures lie within the scope of the invention.

Non-metric units

5. As agreed in a telephone conversation with your agent, a single equivalent metric value for each of the repeating non-metric values mentioned throughout your specification may be included at the start of the detailed description rather than alongside each of the non-metric values.

Registered Trade Marks

6. Although it should preferably be avoided, if you wish to keep the references to the Registered Trade Marks "Lubriplate and Teflon", you should acknowledge on pages 18 and 29 that they are Registered Trade Marks, possibly by using the abbreviation "(RTM)". If you do not insert an acknowledgment, I will do so in manuscript. Furthermore you should not use the Trade Mark "Oilfield Country Tubular Goods" in claim 7 because of potential uncertainty as to what is claimed.
